EXECUTIVE PROFILE

Accomplished, PMP®-certified Senior Architect and Project Management Consultant (PMC) with over 12 years of specialized leadership directing complex architectural master plans, high-profile sovereign and healthcare assets, and high-density commercial retail developments across Saudi Arabia and Egypt. Proven expertise governing full project lifecycles using PMI frameworks—from visionary concept massing and 100% first-pass municipal permitting via Balady and Civil Defense (Salamah), to consultant-side construction supervision BIM coordination, and executive shop package verification. Recognized LEED® Green Associate and NFPA 101 code specialist with an unblemished record delivering 350,000+ m^2 BUA totaling over 500M+ SAR in capital value.

PROFESSIONAL EXPERIENCE

Architect Team Leader & Lead Consultant Architect — **Jun 2026 – Present**

Hassan Mohammad Faqih Consulting Engineers • Jazan, KSA

- Sovereign & Healthcare Landmarks: Directed architectural design and technical execution for high-profile governmental and institutional landmarks, including the Residence of H.R.H. the Governor of Jazan Region, and Jeddah Hospital in Jazan (42,000 m^2 BUA; comprehensive SBC 801 fire safety and infection-control layout).
- Commercial & Mixed-Use Delivery: Governed multidisciplinary engineering and executive facade detailing for Al-Mousa Commercial & Business Complex (18,600 m^2), Corporate HQ 37 (14,500 m^2), Arched Plaza A-55, and luxury boutique townhomes (A-114, A-115 & A-50).
- Team Leadership & Governance: Directed an architectural division of 8 architects, instituting rigorous QA/QC gateway checklists and PMI-standard WBS protocols that shortened internal design turnaround cycles by 30%.
- Municipal Permitting Record: Maintained a 100% first-pass approval and licensing record across Balady and Civil Defense (Salamah) portals for all submitted packages.
- Value Engineering (VE): Headed targeted VE workshops on curtain walling, structural glass, and natural stone cladding, generating over 12M+ SAR in capital savings while preserving architectural vision.

Senior Architect & PMC Lead Consultant — **Jun 2022 – Jun 2026**

Environmental Means Co. for General Contracting • Jazan, KSA

- National Commercial Hubs: Managed end-to-end architectural delivery and statutory approvals for prime retail anchors including LuLu Hypermarket, Jarir Bookstore, Nahdi Care, and integrated Strip Mall Hubs (23,582 m^2 BUA).
- Master Communities: Directed master planning and architectural design for Sabya Gardens Residential Compound (38 villas, 3 public parks) and Salim Babgi Mixed-Use Complex in Abu Arish (38,547 m^2 site area).
- Civic Waterfront: Designed and supervised execution of the 3.2-kilometer Jazan Sunset Corniche Waterfront ("Mamsha Al-Ghoroub"), incorporating kinetic wind-resistant tensile shading and civic promenades.
- Consultant-Side Site Governance: Resolved complex on-site architectural clashes, reviewed contractor RFIs and material submittals, and preserved design intent with zero critical-path delays.

Lead Architect — **Apr 2019 – May 2022**

MHG CONSULTING • Cairo, Egypt

- Mega Master Plans: Led master planning, massing, and zoning for Talda Residential Compound (30 Feddans / 126,000 m^2) in Mostakbal City for HDP, integrating stepped residential terraces, central sports park, and water riverways.
- Luxury Residential & Headquarters: Spearheaded architectural concept, private pool villa layouts, and stone facade packages for Vivienda Residential Compound and Pearl Des Rois Commercial HQ in New Cairo.
- International Collaboration: Partnered with UAE-based consultancies to author comprehensive executive design packages conforming to Gulf developer standards.

Co-Founder & Architectural Design Lead (Concurrent Practice) — **May 2019 – Feb 2022**

Flamingo Studio • Al-Mahalla Al-Kubra, Egypt

- Co-founded architectural boutique firm, delivering 20+ bespoke private residential villas and boutique commercial venues from concept sketches to turnkey handover.
- Directed creative design development, photorealistic 3D visualization, municipal permit documentation, and on-site fit-out execution.

PROFESSIONAL EXPERIENCE (CONTINUED)

Senior 3D Visualizer & Architectural Designer
Sep 2018 – May 2019

Vanilla Studio • Al-Mahalla Al-Kubra, Egypt

- Promoted to Senior Visualizer in 5 months. Led high-end photorealistic rendering pipelines (3ds Max, Corona, V-Ray) for landmark developments: Emaar Mivida Boulevard, Obelisko Capitale Tower (1,000m concept), and Armonia New Capital.
- Delivered high-impact architectural presentations and marketing renders for residential compounds across Turkey and Italy.

Architect (Mid-Level)
May 2016 – Apr 2018

TCG - Touch Consultants Group • UAE / Egypt

- Generated architectural working drawings, execution shop packages, and interdisciplinary MEP coordination for luxury residential projects in the UAE.
- Maintained strict adherence to Gulf municipal regulations and client technical specifications.

Early Career Architectural Practice
2014 – 2016

Royal Palace LLC (2014–2016) • Shosha Kamal Design House (2014–2015)

- Royal Palace LLC (Interior Architect): Prepared luxury interior architecture packages, bespoke joinery/millwork shop drawings, and FF&E specifications for UAE high-end residences.
- Shosha Kamal Design House (Junior Architect): Contributed to the historic rehabilitation of The Greek Campus (Tahrir Square) and vital interior healing spaces at 57357 Children's Cancer Hospital.

CORE STRATEGIC COMPETENCIES & PMC GOVERNANCE

- **PMC Leadership & Design Management:** Directing full-lifecycle architectural delivery across mega-scale mixed-use, healthcare, and residential developments using PMI frameworks, WBS structuring, and critical-path scheduling.
- **Statutory Compliance & Fast-Track Permitting:** 100% first-pass municipal and civil defense approval track record across Balady and Salamah platforms; deep mastery of the Saudi Building Code (SBC 201/801) and NFPA 101 Life Safety Code.
- **BIM Strategy & Multidisciplinary Coordination:** Applying comprehensive BIM methodologies and federated models in Autodesk Revit and Navisworks, resolving spatial-structural-MEP clashes before site mobilization to prevent field rework.
- **Targeted Value Engineering (VE):** Leading systematic VE workshops across facade systems, structural envelopes, and MEP packages, achieving 12M+ SAR in verified capital savings while safeguarding architectural vision.

EDUCATION & ACADEMIC AFFILIATIONS

- **Bachelor of Architectural Engineering** • Delta Higher Institute of Engineering & Technology (Graduated: July 2014)
- **Architectural Association Visiting School (AA London)** • Mittelmeerland 5 Global Research Initiative on Mediterranean Waterfront Urbanism (2014)

VERIFIED LICENSURES & ACCREDITATIONS

- **Project Management Professional (PMP®):** Project Management Institute • Cert #4322897 (Valid: Mar 2026 – Mar 2029)
- **LEED Green Associate™ (LEED® GA):** U.S. Green Building Council / GBCI • Credential #11676431 (Valid to: Apr 2028)
- **Professional Accredited Architect:** Saudi Council of Engineers • SCE Membership #864653 (Professional Grade)
- **NFPA 101 Life Safety Code Essentials:** National Fire Protection Association • Certificate #2144175447 (Educational Achievement)

TECHNICAL PROFICIENCIES & SOFTWARE MASTERY

- **BIM & Computational Architecture:** Autodesk Revit Architecture, BIM Workflows & Interoperability, Navisworks Manage (Clash Detection), AutoCAD Architecture, Rhino, Parametric Detailing.
- **Project Governance & Permitting:** PMI Methodology, Primavera P6, Microsoft Project, Balady Municipal Portal, Salamah Civil Defense, Saudi Building Code (SBC 201/801).
- **Photorealistic CGI & Visualization:** Autodesk 3ds Max, Chaos Corona, Chaos V-Ray, Adobe Photoshop, Architectural Walkthrough Direction, Tone Mapping.
- **Sustainability & Building Performance:** LEED® Sustainable Design Criteria, Mostadam Compliance, Envelope Thermal Optimization, Life Safety Egress Calculations.
